**FUND
ADMINISTRATION
SYSTEM**

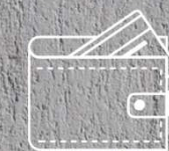

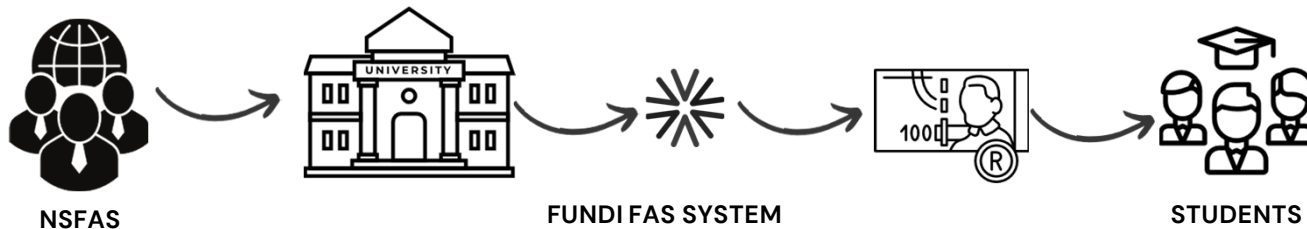

FUND ADMINISTRATION SYSTEM

Our **fund administration system** enables institutions and bursary providers to manage the disbursement of NSFAS and/or private bursary allowances through **a close-loop system driven by our pocket technology**.

Our FundiCard technology is a leading **bursary funds disbursement tool** which is currently used by leading public universities, blue-chip corporates and foundations to administer the disbursement of bursary allowances to their funded students.

The **FundiCard** is supported by a **network of over 5000 on and off campus merchants** across retail, accommodation, books technology and other student-centric services across the country.

[Unaccredited Merchants](#)

UNACCREDITED MERCHANTS

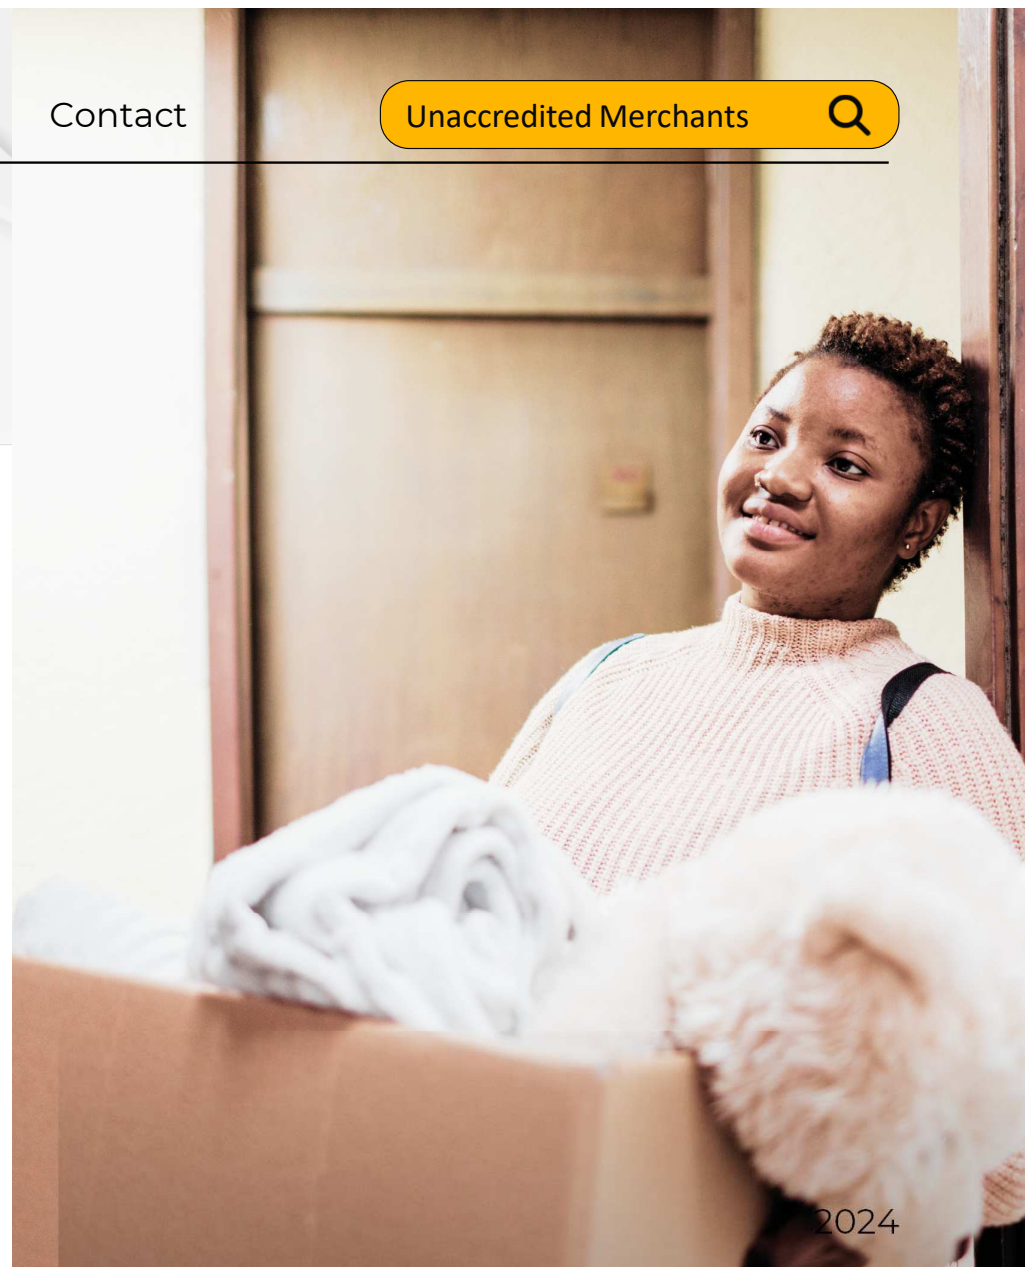

UNACCREDITED MERCHANTS (Digitised Accreditation System)

Unaccredited merchants are those who offer smaller accommodation options, such as renting rooms to one or two students. Universities do not generally inspect these accommodations for accreditation and instead rely on the lease agreement submitted by the merchant.

In 2022, the process of administering these lease agreements was done manually,

- **Hard copies were submitted to the university.**
- **Student accounts** were then loaded on an individual basis.
- Merchant information and students information were captured manually
- **Difficulties in verifying merchant banking details** and sometimes students were linked to the wrong merchants.

UNACCREDITED (Digitised Accreditation System) **MERCHANTS**

To solve this problem, Fundi has developed an **online solution to digitise the process** and make the information accessible online. This solution was implemented in 2023. Not only does it assist the university in the loading process but also help **Fundi verify merchant information** and access the students linked to each merchant. It **eliminates duplicates** and make **student payments faster and more efficient**. It also provides a valuable feature where students can acknowledge their place of residence, making it easier to track their movements in and out of the accommodation.

The implementation of this solution has the potential to **greatly benefit the market**, as no one has yet explored the payment of these unaccredited merchants. Many institutions struggle with managing these small merchants, and **Fundi has the system that can help**.

FUNDI **Accommodation**

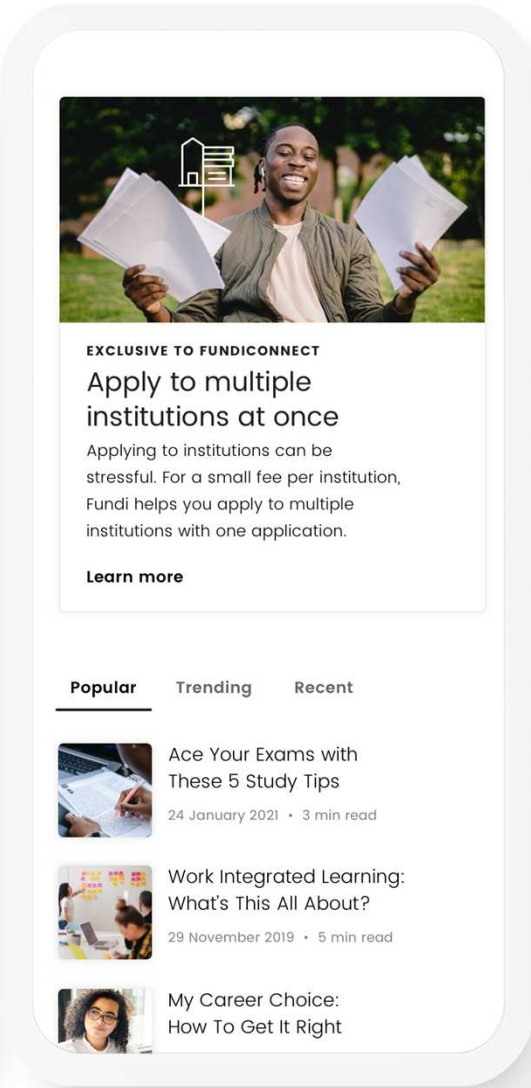

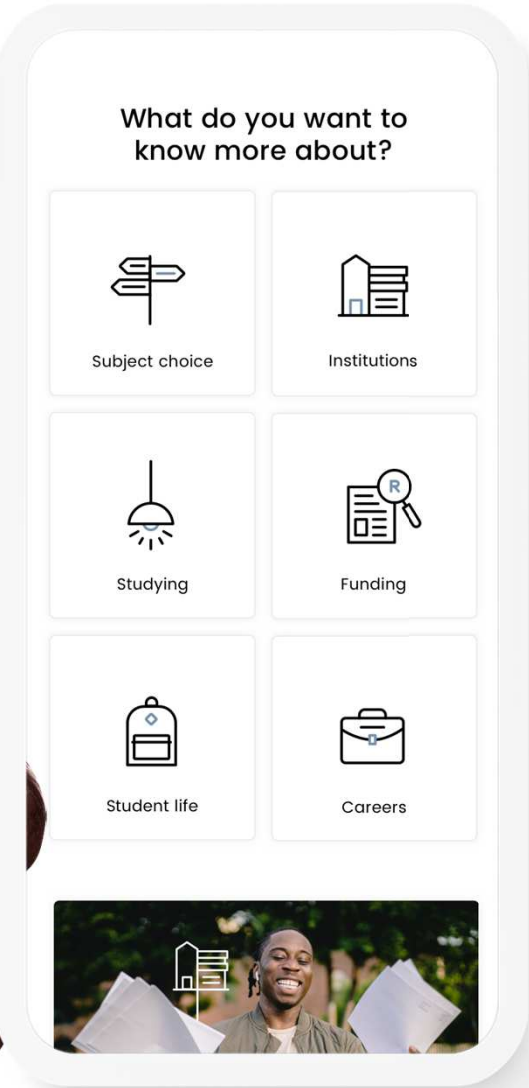

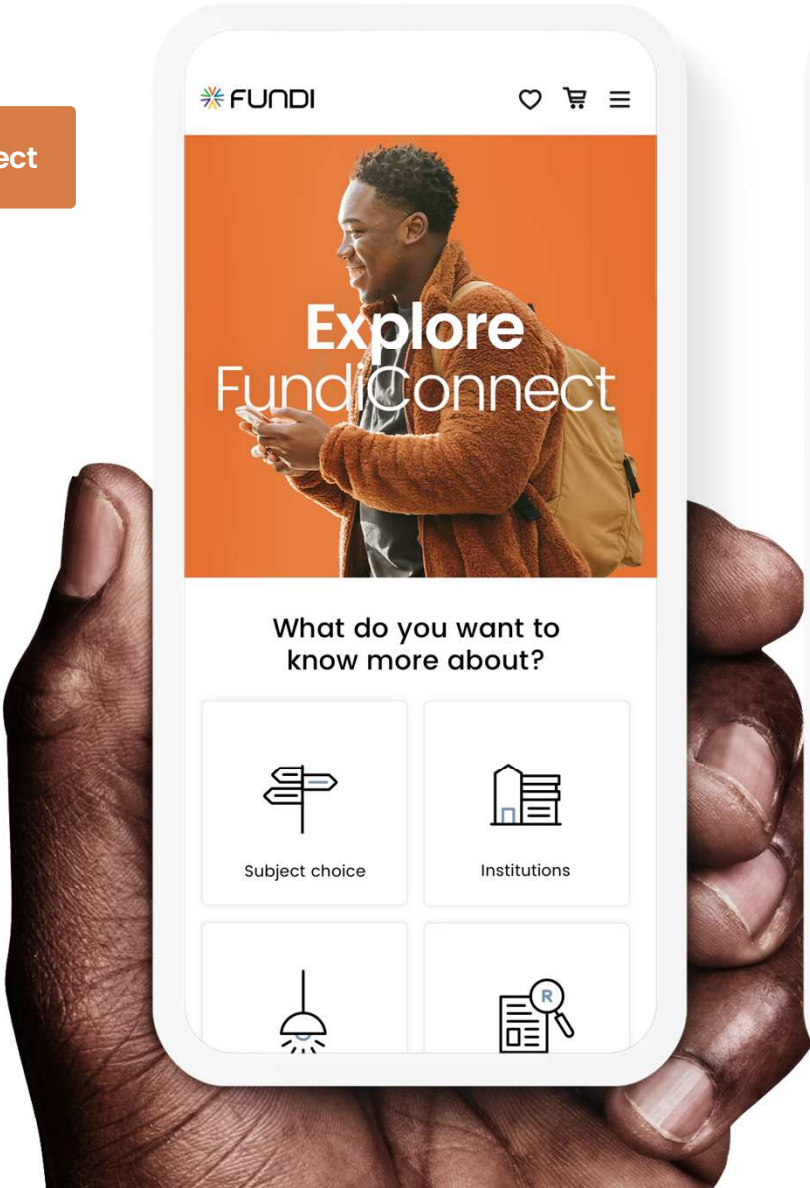

We have made finding student accommodation as easy as click, click done! All you have to do is select your university, the amount you are willing to pay, the type of place you are looking at staying while on campus and that's it. We have partnered with accommodation merchants so all you have to do is find the right place that fits your vibe. Register now to begin:

PSYCHOMETRIC TESTS FOR STUDENTS

Matching Your Personality With Your Profession.

FundiMatch is a psychometric assessment platform that matches students' personalities and aptitudes with their most relevant subjects and career choices.

GET STARTED

How does FundiMatch work?

- Take a FundiMatch assessment online at your convenience.
- The assessment takes about 45 minutes to complete and measures a variety of factors, including the student's strengths, weaknesses, interests, and values.
- Once you have completed the assessment, you receive a detailed report that provides insights into your career path and qualifications.

When should you use psychometric tests?

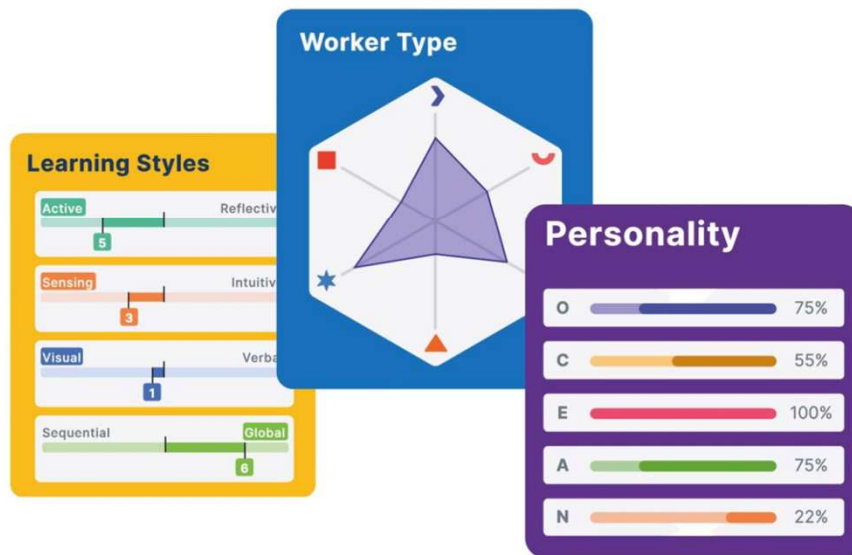

FundiMatch's psychometric tests are most effective when used during the early stages of career exploration. The insights gained from these assessments can help you narrow down your options, identify potential study programmes and make informed decisions about your future.

Get in-depth insights into your personality, skills and cognitive abilities with FundiMatch's comprehensive psychometric tests. Take the first step towards unlocking your potential today.
